SUMMARY

Full-Stack MERN Developer with 1 year of hands-on experience building and deploying scalable web applications. Proficient in Node.js, Express.js, MongoDB, and React.js, with strong expertise in REST API development, authentication, and performance optimization. Experienced in integrating AI-powered features and third-party services to enhance functionality and user experience. Skilled in modern development tools including Git, Docker, and cloud deployment. Committed to writing clean, maintainable code and delivering high-performance, user-centric solutions end-to-end.

Skills

- Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3.
- Frontend-Stack: React.js, Next.js, Tailwind CSS, Redux, MUI, Bootstrap, EJS | Animations: Framer Motion, .
- Backend-Stack: Node.js, Express.js, JWT, Nodemailer
- Databases: MongoDB, PostgreSQL.
- Storage & Media: Cloudinary, Multer.
- Architecture: SaaS, CMS, Admin Panels, MVC.
- Integrations: OAuth 2.0, REST APIs
- Cloud & Deployment: Vercel, Netlify, Render, Hostinger, Railway

Projects

ShopSphere | E-Commerce Web Application (Live : [ShopSphere](#))

- Built a full-featured e-commerce web application using React.js, Redux Toolkit, and Redux-Saga for scalable and efficient state management.
- Implemented seamless navigation with React Router and optimized large product listings using DataTables to improve performance.
- Integrated RESTful APIs and interactive UI components (Swiper) to enable real-time data updates and enhance user experience.

BabyCare | Kidz School (Live : [BabyCare](#))

- Built a scalable BabyCare (Kidz School) web application using MERN stack for efficient data management and communication.
- Designed seamless navigation and optimized large product listings to improve performance and usability.
- Integrated RESTful APIs and interactive UI components to enable real-time updates and enhance user experience.

Minor Projects :

- Weather App : | React, Weather API, MUI | [Link](#)
- GreenCart: Developed online shopping and delivery web application [Link](#)
- Wonderlust: Developed a travel booking web application with modern UI | [Link](#)

Work Experience

Knowlwdge Spatial Private Limited | June 2025 – Present

- Working on real-world, production-grade web applications using the MERN stack (MongoDB, Express.js, React.js, Node.js).
- Contributing to defense-related (Army) projects, building secure and scalable systems for data handling and visualization.
- Designing and developing RESTful APIs and seamlessly integrating frontend with backend services.
- Implementing authentication, data management, and performance optimization for high-reliability applications.
- Collaborating with cross-functional teams to deliver efficient, maintainable, and mission-critical solutions.

S.O Infotech Private Limited | Dec 2024 – May 2025

- Completed 6 months of intensive MERN Stack training and 6 months of hands-on experience at S-O Infotech (P) Limited, building real-world full-stack applications and REST APIs using MongoDB, Express.js, React.js, and Node.js.

Education

B.Tech Computer Science Engineering
Dr. A.P.J Abdul Kalam Technical University
CGPA: 7.5

Achievements

- Solved complex bugs and optimized application performance in real-world projects.
- Led key modules from development to deployment with full ownership.
- Collaborated with teams to deliver scalable, high-quality solutions on time.
